## WORK EXPERIENCE

### APPLICATION DEVELOPMENT ANALYST, ACCENTURE INDIA PVT LTD

SEP 2021 – AUG 2023

- Developed web applications including a supply chain management tool using Blazor and a seat management system with Angular.
- Designed and maintained databases to support application functionality, ensuring data integrity.
- Collaborated with designers to create user-centric interfaces.
- Utilized analytics to track usage patterns, incorporating data visualization within Blazor to create dashboards and reports.
- **Awards: ‘Growth Catalyst Award’ and ‘Accenture Celebrates Excellence’**

### QUALITY ASSURANCE INTERN, COGNITIVE CLOUDS PVT LTD

SEP 2020 - DEC 2020

- Addressed interface usability issues, and collaborated with developers to review and refine test cases.
- Presented client demos of the application's new features.

## PROJECTS

### Project 1: Licensing Application - Accenture Services Pvt. Ltd.

- Designed and implemented complex UI components such as forms, modals, and grids using Telerik Blazor.
- Analyzed business requirements and prepared low level design documents.

### Project 2: Seat Allocation and Management – Accenture Services Pvt. Ltd

- Analyzed and stabilized demand/supply processes to ensure high seat utilization in the application.
- Maintained and managed data backups to ensure data integrity and resolved production data issues.

### Project 3: Email Voice Assistant– Under Graduation

- Developed a chrome extension for the visually impaired to aid them with all Gmail operations using a voice assistant to help with mundane tasks in the Gmail inbox. ([View Demo](#))

## CERTIFICATIONS

- Applied Data Science with Python Specialization ([View Certificate](#))
- AWS Certified Cloud Practitioner ([View Certificate](#))
